

# About Us

Based on our wide experience in the aluminium industry and knowledge of the US & European market's requirements, we are determined to be a reliable source for all your extrusion and fabrication needs.

We can offer turn-key solutions starting from the design assistance with profiles to supply of end product.

To provide our customers a fast and safe delivery we co-operate with reliable transportation companies with offices and hubs around US and Europe. They make the supply process easy for our clients, negating the need for our clients to handle import documentation.
